If we all would practice inside bath ing, what a gratifying change would take place. Instead of thousands of half sick, accemic-looking souls with rests, raudity complexions we should see storage of happy, healthy, rospelwoked people ever-where. The rearid limit each day of all the waste which it accumulates under our pres ent mode of living. For every ownce of food and drink mach into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomainedisc poisons which are also bed into the blood.

Just as necessary as it is to clean the asims from the turnace each day. before the live will burn bright and hot, so, we must each morning clear the in- the organs of the previous day's plation of indigestible waste and hody tomis. Men and women, whether sick of well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of imestone phosphate in it, as a harmless means of washing out of stomach, liver, kidneys and bowels the udigentible muterial, waste, sour bile and toxins thus cleansing sweeten one and purifying the entire alimentary canal before putting more food into the stomach

Millions of people who had their turn at constipution, bifform attacks, acid stomach, nervous days and sleeplets much's have become real cranks about the morping inside-bath. A quarter period of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to enjoue its cleansing awestening and freshen ing effect upon the system.
